One view of your home

See a recap of recent events

Keep it all connected

Fill your home with sound

Set up, manage, and control your Google Home, Google Nest, and Chromecast devices, plus thousands of connected home products like lights, cameras, thermostats, and more – all from the Google Home app.

One view of your home.

The Home tab gives you shortcuts for the things you do most, like playing music or dimming the lights when you want to start a movie. Control it all with just a tap – and get to the good stuff faster. The Feed tab highlights the most important events in your home all in one place. Here you'll also find ways to get more out of your devices and improve your home setup.

Create routines that allow you to turn on lights, check the weather, play the news, and more with one simple command.

See all the active audio and video streams on all your home devices in one place, change their volumes, skip to the next track, or quickly change which speakers they're playing from.

Understand what's going on at home with a glance. The Google Home app is designed to show you the status of your home and keep you up to date with what you missed. Check in on your home anytime and see a recap of recent events. You can also get a notification if something important happens while you're away.

Set up your Nest Wifi in minutes using the Google Home app. Manage your network from your mobile device. Run speed tests, set up a guest network, and easily share your Wi-Fi password with family and

friends. Decide which devices to prioritize for faster speeds and use parental controls like Wi-Fi pause to manage online time for the kids.

* Some products and features may not be available in all regions. Compatible devices required.

Google Home Facelift A Success!!
The first iteration of the Google Home app was fine for launch, but there are certain features and refinements that were missing, then they made it a little convoluted by   more

You learn more by testing
I honestly wasn't expecting much since I stayed at a home that had Alexa. I genuinely love the Google home so much. It's easy to maneuver and I like that it resumes from   more

In response to "kahnpro"...
I know what you're thinking...😮omg . Same thing I thought when my buddy was doing some browsing(not your typical amateurish cpu skills here i mind you) & reading DEE more
